

Mountaineers To Play Roseville In Truckee Sunday

Grass Valley Is Victim As Mountain Men Score Win

Starting off the second half of the Placer Nevada League schedule, the Truckee Tahoe Mountaineers Sunday gave a good demonstration of their possibilities by walloping the Grass Valley Braves 15 to 4.

Frank Giovannoni pitched the full nine innings for the locals, striking out four, allowing only three walks and 11 hits and at bat came up with a home run and a double and batted in two runs in four times up—a nice performance for a pitcher.

His opponent on the rubber, Jim Trathen of the Braves, permitted 12 hits, struck out five and gave four passes. Trathen also got two hits in four times.

The locals looked good from the start when they blasted the offerings of Trathen for four hits and four runs. From then on it was never in doubt. Another four tallies in the third, one in the fifth, four more in the sixth and a couple in the seventh put the game on ice.

Grass Valley protested the game in the sixth inning with the score 11 to 4, basing the protest on the interpretation of the interference rules by Umpires Gallagher and Errcart.

Truckee left only two men on base to Grass Valley's eight.

Home runs were again features of the game. Dick Trathen and Cukjati smashed circuit clouts for the visitors and Faight, Baxter, Harvey Martin and Giovannoni sent the ball over the fence for the home team. The first triple in the new fenced park was scored by Christie, local initial sacker. Ulsheimer, Faight and Giovannoni each hit doubles for Truckee. Faight and Martin each batted in three runs, Faight getting two for four, Williams two for three and Ulsheimer two for five. Korich continues to play a star game back of the plate but is still hitless.

In the Grass Valley game during the first half Truckee lost 16 to 6 and the game last Sunday evened the score.

Next Sunday on the diamond here the Mountaineers will play host to the power gang from Roseville.

New Market To Open Friday At Gateway Park

New Board Takes Over For Chamber For Next Year

The Truckee branch of Rose Brothers Markets will have its official opening in the new store at Gateway Park Friday morning at 9 o'clock, Dave Rose, manager, this week announced.

The store occupies a space of 80 by 55 feet in a new building just completed by R. Joseph in the block of buildings just east of the Gateway Motel. It has been designed by Rose to provide a maximum of space for displaying a large stock of groceries, vegetables, fruits, meats and other market requirements.

Counters and shelves were also designed and built by Rose in keeping with his plan to give his customers the full advantage of the large and varied stock. Parking facilities have been provided in front and at the side of the store, with a driveway completed around the entire block.

Refrigerated vegetable and meat walk-in storage rooms have been completed with a store room 70 by 15 feet in the rear of the store. There are 44 feet of vegetable bins, also erected by the manager and open refrigerated shelves for dairy produce and beverages. The store is more than five times the size of the present market which was closed Saturday while the manager and clerks concentrate on getting the new store ready for the opening.

Associated with Rose in the enterprise will be John Grack, who will operate the meat department, Harvey Hocker and John Waller, with extra help as required.

For the opening day, Rose said he will have free ice cream and balloons for the youngsters and free souvenir gifts for the elders. Store hours each day of the week will be from 9 a.m. to 9 p.m. J. R. Wolert was the contractor who erected the building, following out a design by Rose. The other Rose Brothers Markets are at Hawthorne, Nev., and Quincy.

STORK IS WINNER, BABY IS BORN IS CAR AT TRUCKEE

The stork stole a march on Mrs. Peggy Medina of Roseville Sunday and as a result her daughter became a native of Truckee.

Mrs. Medina was vacationing with friends at Lake Tahoe and was en route to her home when the stork, playing one of his unusual pranks, swooped down and just as the car reached the front of Dr. L. D. Nelson's office, the daughter was born.

Sun Beams

by Walter M. Barrett

Officials and field personnel of the Tahoe National Forest this week are attending the annual fire control course at Hobart Mills where they will learn the fundamentals and intricate details necessary for the control of forest fires. All the training in the world, however, will not prevent forest fires—that's a program in which each and everyone of us must participate. The slogan that "Only You Can Prevent a Forest Fire" is entirely true. This summer let us all firmly resolve that no fire in the forest shall be attributed to our carelessness. Above all things, be careful of fire. Don't throw burning cigarettes or matches from a car. You may do it a thousand times and no harm may result. On the other hand a vagrant breeze or an air current from a passing car might send the spark into dry grass and a major conflagration might result. It's hardly worth while taking a chance. Use your ash tray.

With hardly an exception, Truckee merchants are keeping prices at a minimum and more and more local residents are learning that they can shop at home and save. We have made numerous comparisons of prices between local stores and those in other localities and find that, despite an occasional protest to the contrary, we are enjoying minimum costs for quality products and for the most part service in the local stores is far better than you expect elsewhere. And to top the benefits you are helping make Truckee a better town by buying at home.

Although there are still a few finishing touches to be made on the Gateway Donut Shop, Duane Freeman, operator of the new, modern lunch room at Gateway Park, has opened his establishment and is prepared to serve breakfasts, lunches, short orders and is specializing in his famous Downyflake donuts.

The restaurant occupies the west end of the new business block just completed by the owner, R. Joseph. A sidewalk, canopy and parking spaces have been completed and the new restaurant is equipped with a small kitchen, ice boxes, full length counter and stools as well as the other lunch room essentials.

Emphasis will be placed on cleanliness and wholesome foods, Freeman said, in extending an invitation to his many friends to call at his new location.

Three Hurt As Cars Crash In Donner District

No One Is Injured As Cars Collide At Intersection

Two motor vehicle accidents during the weekend sent three people to hospitals, the California Highway Patrol reports.

Mrs. Grace Underhill, 52, Berkeley, wife of the treasurer of the University of California, suffered several broken ribs Friday morning at 9 o'clock when her car went out of control near Cisco and overturned. She was cited by Patrolman William Gautsche for driving without due caution.

That same evening in the cut on Donner Summit, George H. Cook, 39, Tahoe Vista, lost control of his car and it was wrecked on the rocks above the road. A hitchhiker, Buck Lacey, 56, was taken to the Nevada City hospital for treatment. A second hitchhiker was not badly injured. Cook was cited by Gautsche for speeding and for not having an operator's license.

Donald Morrison, 43, Del Paso Heights, was cited for failure to yield right of way by Gautsche following a collision of two cars at Spring Street and Highway 40 in Truckee Sunday at noon. Cars driven by Morrison and Harvey Thomason, 44, Truckee, were damaged but no one was injured.

Fire School Held At Hobart Mills For Forest Men

More than 75 staff officers and field personnel of the Tahoe National Forest are participating in the annual fire control training meeting being held this week at Hobart Mills, seven miles north of Truckee.

The five day course is running from Monday through Friday will include special instruction in the use of fire equipment such as tankers, pumps, radios and bulldozers.

Principals of fire line location and construction are being demonstrated and each man is receiving detailed instruction in the job for which he has been classified.

The training period is to be dimaxed with fire control maneuvers under simulated large fire conditions.

Fire control instruction is under the direction of District Ranger E. E. (Pike) Boehm, Fire Control Assistant William Curran of Truckee; Fire Control Officer Keith McDonald and Forest Supervisor Guerdon Ellis of Nevada City.

More Boys Held As Probe Shows Added Burglaries

June 29 Set for Hearing For First Group Of Accused

With June 29th set as the date for the preliminary hearing for four teen-aged Truckee boys facing charges of burglary, local officers this week were engaged in rounding up still another group, all accused of burglarizing the Coca Cola Bottling Company plant here over a period of time.

One of the youths taken into custody last week is said by officers to have involved six others from Truckee and Tahoe, all under 18 years of age, in the second affair. He admitted, Deputy Sheriff Posten Wilson said, to being a party to both alleged burglaries. The first arrests were for breaking a lock and entering the warehouse of the Concanon Wine Company here from which a large quantity of cased beer was taken.

W. M. Englehart, owner of the Coca Cola Bottling Company, reported that a series of burglaries have occurred at his plant over a long period of time, the latest being during February. He said he has filed charges against the youths.

Probation Officer Thomas Barrett was here this week to make an investigation and to question the boys relative to the two separate offenses.

All of the boys said to be involved in the two cases have been certified to the juvenile court.

A recent addition to North Tahoe's Business Directory is the North Shore Hardware & Supply House, owned and operated by Mr. and Mrs. Jerry Gordon and their daughter, Maxine. Before joining our local business population, the Gordons spent only their vacations at that summer home on Brockway Hill. They happily

declare themselves "year round residents" now. It is a pleasure to welcome this new family to North Tahoe. Maxine, incidentally, is interested in Dresden ware, finished or unfinished. She has a lot of information available along that line.

Red Cross swimming campaign begins July 6 at Kings Beach. Classes will be held from 9 to 11:30 each morning beginning on that date and ending July 22, under direction of Miss Evelyn Gassaway with her assistant, Miss Pat Brennan, both of Auburn. Last year Miss Gassaway was assistant to the instructor. You youngsters get in there and really learn to swim. Junior Life Saving courses will also be offered.

Mr. and Mrs. C. Gassaway, the parents of your Red Cross swimming instructor, with her grandparents, Mr. and Mrs. Weeks, all of Auburn, were guests over last Sunday in the home of Mr. and Mrs. David Hall where Evelyn and Pat will stop during the current course of instruction.

Three big cheers for Charlie Cross, who so gallantly and cheerfully conducted the Lake Tahoe Chamber of Commerce meeting Wednesday night, June 14, following the second annual election banquet which was this year held at Clyde Beecher's place at the south end of the lake. In spite of a recent major operation, Charlie insisted that he be allowed to conduct the meeting as an outgoing president should. He did it beautifully, right through to the end of that memorable meeting. Officers elected are Clyde Beecher, district 2, president; C. W. Vernon, district 3, first vice; Pappy Brooks, district 4, second vice; Kenneth Amundsen, district 1, treasurer. There were three outgoing directors. Directors are appointed for a period of three years, thereby keeping a number of old directors who are well versed in chamber of commerce operation at all times on the board.

Mere words, they tell me, can not express the huge success of that trap shoot held at the Lake Tahoe Gun Club grounds over last weekend. After calling several of the officials and failing to get any details (seems everyone is too busy at the moment to gather and release the information) I must, with regret, say that we can try to have the complete report for you next week. Andy Sorensen did venture this much, he thinks a lot of those boys who shot up there this time will be back again.

tablishments. The initial classes did not include the full program but the Tahoe people expressed their desire to have the complete program conducted next year. M. (Pete) Bennett of the Brockway Hotel asked that the same short course be given at his hotel sometime in July for the benefit of his employees. Persons in that area who might be interested in attending these classes are invited to do so.

SEAPLANE BASE AT LAKE TAHOE IS APPROVED BY C.A.A.

Lake Tahoe is to have its first seaplane base if present government approved plans are carried out.

Improvements to the existing facilities at the Douglas-Tahoe airport have been approved by the Civil Aeronautics Authority in Washington, D.C., Sen. George Malone of Nevada revealed recently.

Total cost of the two projects is expected to reach approximately \$26,000, with the federal government to allocate \$16,625 of this amount.

Completion of the base and the improvements depend upon the raising of the remaining \$9,975 by sponsors or by private subscription in order to match the government appropriations, Senator Malone stated.

The seaplane base would be at Zephyr Cove and the existing Douglas-Tahoe airport, slated for improvements, is at Tahoe Village.

The new telephones put in daily mean more value for all. You can reach more people...more can reach you.

How your service grows more useful as we add new telephones

TELEPHONE GROWTH

1940 1,982,000
TELEPHONES

1950 4,084,000
TELEPHONES

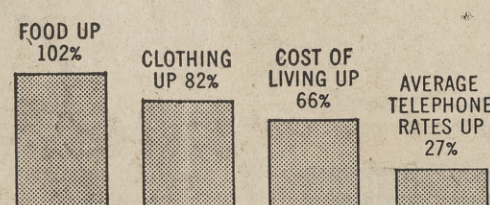

1. In the ten busiest years we ever had, the West's population jumped more than fifty per cent. Telephone service grew even faster... the number of telephones at work in the West has doubled. And we built this new system in the face of inflated postwar costs... for we can't, in contrast with most businesses, defer the addition of plant just because the cost is high.

2. You may never call this particular telephone... but it's pretty certain you will want to call or hear from some of the telephones we're adding. As the West grows, new people come into your town... others move their homes and businesses... so it is necessary for us to do our best to keep pace with the growth of your community to make sure you can call whom you want, when you want.

3. As a part of a bigger system, your telephone is a bigger value today... particularly when you consider the low rates you pay for service. Long distance telephone rates actually decreased between 1940 and 1946. And, while the increases in local and long distance rates since 1946 vary, the average for the territory we serve has been only 27 per cent. Your telephone still gives you a big value for your budget dollar. It's one of today's best bargains.

Enthusiasm At Meeting Runs High For Lake Tahoe Sierra Association

HOMEWOOD— So great was the enthusiasm which greeted the meeting of the Lake Tahoe Sierra Association last Thursday at Camp Richardson that all thought of possibly abandoning the organization was forgotten and instead it was determined to continue with increased activities. One of the most far reaching decisions was arrangements for a meeting between the directors of the association and the Lake Tahoe Chamber of Commerce for the possible unification of the two booster groups into one solid

front for the purpose of promoting the many advantages of the region.

President C. B. Cross of the chamber readily agreed with the suggestion and an immediate meeting is contemplated.

Because of the death of Henry F. Droste, for many years secretary and one of the most active promoters of the association, it has become necessary to replace him and a proposal is being studied to employ a full-time executive secretary.

George Kehlet, another active director of the association, told the meeting of the importance of advertising—not necessarily resort promotion but advertising

for the entire lake area. He gave a resume of the activities along this line in past years and outlined a program for the future. He praised the newspapers and other periodicals for fine publicity given the lake and called attention to the expenditures made by the association in promoting the lake as a unit.

It was pointed out by most of the speakers that in order to continue the work it will be necessary to secure finance and every owner in the district was asked to get behind the association financially if the program is to be a success.

Representatives from other cities attended the meeting and pledged cooperation. Harry Comstock, who was re-elected president, presided at the meeting and 83 attended.

Pumicite is utilized as a scouring agent in cleanser, in soap and as a carrier for insecticides.

FLORISTON

by C. A. FELESINA
FLORISTON— Stevie Ayala celebrated his eighth birthday on Wednesday, June 14, with a barbecue party. Those attending were Roy and Glenn Little, Ronny Germaine, Davie Ayala and their host.

Mr. and Mrs. Frank Seymour left Friday evening for San Jose where they were called by the death of Earl Murray, a friend of long standing. The deceased was well known at Truckee as he was for many years master mechanic at Hobart Mills.

Mr. and Mrs. D. O. Heath celebrated their tenth anniversary and Mr. and Mrs. Lester Felesina celebrated their 15th anniversary with a joint buffet dinner at the Felesina home last Thursday evening. They were assisted by Mrs. Wesley Craig and Mrs. Frank Seymour.

The affair was also a going away party for the Felesinas who left Saturday morning for a couple of months in the east where Mrs. Felesina will attend the national convention of the Women's Benefit Association at Atlantic City June 26th after which the couple will visit relatives and friends throughout New Jersey and New York.

Also honored was Thomas Julian, brother-in-law of Mrs. Felesina, whose birthday was on the same date.

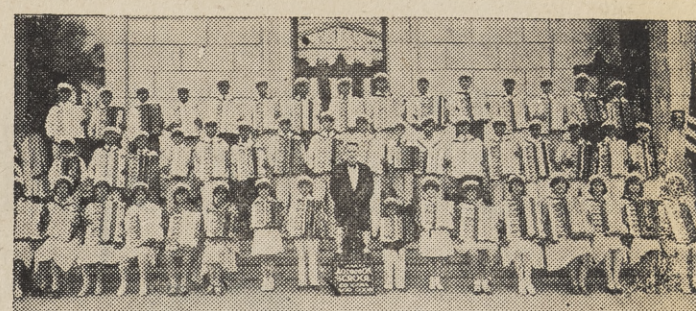

Those attending the dinner were Mr. and Mrs. Thomas Julian and son Calvin of Yerington, Mrs. Carlotta Ohl of Reno, Mrs. Marjorie Thies of San Francisco, Mrs. Alice Smith of Sparks and Messrs. and Mesdames Wesley Craig, Frank Seymour, H. A. Savage, George Ward and L. M. Felesina, all of Floriston.

WORK PROGRESSES AT BEAR VALLEY ON NEW HIGHWAY

Construction on the realignment of Highway 20 on the west slope of Bear Valley, which began July 15 last year, was resumed on June 5 by Richter and Darrough, Yuba City contractors. The \$450,000 National Forest highway project was shut down December 15 for the winter.

A spokesman from the public roads bureau says the job is 70 per cent complete and that the project is expected to be fully completed in about two months. The contract deadline is August

15. He points out that the old road had grades up to 15 per cent and the with completion of the current project the maximum grade will be seven per cent.

64 SUMMIT LAKES TO GET FISH IN AERIAL PLANT

SAN FRANCISCO—The California division of fish and game last week took off on the nation's most ambitious aerial fish planting mission.

In the next two months, the state agency's twin engined airplane will drop a total of 1,639,000 rainbow and brook

trout in 373 mountain lakes, including 64 in the Donner Summit area.

Flying a tough 48-day schedule over some of the trickiest terrain in the west, Warden-Pilots Al Reese and Carrol Faust will release the fingerlings in waters ranging from Siskiyou to Tulare and Inyo counties. The plane is capable of carrying up to 25,000 fish each trip.

Although the bureau of fish conservation began its aerial planting experiments in 1946, full scale operations were delayed until special equipment and flying procedures were developed for the difficult high Sierra country. Several other states are also using aircraft in their fish planting programs.

Reese asserts the airplane is here to stay, but will supplement — not replace — the continuing horse, truck and human transport of trout.

Tests made recently prove that fish can be safely dropped from elevations up to 800 feet. Other findings reveal that the cost of planting comparable areas by man and horse is considerably higher.

Before the aerial planting program ends August 18, the crew will also have stocked 165 lakes in the Mount Shasta area; five in the Fall River Mills area, 33 in the Alamanor-Feather River area, 23 in the Yosemite and central Sierra region, 24 in the western lower Sierra and 83 lakes in the eastern Sierra area.

West of Ione, Amador County, is a clay pit which has been in continuous production since at least 1864.

The meeting reconvened at 10 o'clock A.M. with Chairman W. E. Odell presiding and all members present. Passed a resolution authorizing the Chairman and Clerk to

execute a lease agreement to sublease the premises known as 246 Commercial Street in Nevada City from March 1, 1950 to June 30, 1950 at \$222.00 per month. Informed a committee from the V.F.W. that the Architect is now in possession of full information to enable him to proceed with the plans and specifications for the Nevada City Building. Discussed with the County Recorder and a representative from the Rectigraph Photo Recording Machine Co. the feasibility of adopting photo recording in Nevada County. Such a machine would cost approximately \$5500.00 with necessary installations. Took under advisement the request of the Sheriff for three additional deputies. Spent most of the afternoon discussing with a committee of citizens the matter of the State of California establishing a prison camp in Nevada County and refused to alter their original position opposing the camp unless the State could find a suitable place where the residents of the surrounding area made no objection. Ordered the Architect to prepare final drawings and estimates for the V.F.W. building in Nevada City. Also instructed the Architect to prepare a preliminary plan with estimates for a juvenile detention home. Ordered the minutes of the meetings of June be published in the SIERRA SUN.

(Continued on Page 8).

We have just returned from her rocky woodland hideaway and there aren't enough words to tell of its enchantment. In the first place, the six foot stone wall around their property—and its more than a mountain lot—was built stone by stone by Helen and Ray. Most of the stones Ray cut and chiseled himself. I asked them if they had counted the stones or the hours they have labored for the past years but they say "No. Just a hobby." This sanctuary not only has a great many types of flowering plant life but squirrels and birds abound. Little bird houses woo the feathered creatures while Helen feeds the squirrels from her fingers as she rests on the stone porch that fronts their home. Loads of fertilizer and earth have been hauled in this hideaway for the gladioli. bulb and seed flowers that are

getting ready to bloom under her green thumb. In the meanwhile Ray sits in his own little rock quarry and hammers away, chiseling and breaking rock for the two-car stone garage they plan on getting underway shortly. We haven't been up to Kiski this year to see what Lola Schull has done in the way of planting because she has just returned from the hospital in Carson City after a major operation so she may be a bit late with her terraced garden but we'll be it's underway for the year. Whilst we are in the way of floriculture, we'll mention that Peg Travis of the Soda Springs Hotel crawls around on her hands and knees with a trowel as she sets out plants against the stone walls of the hotel. Donner Summit Lodge plans on hanging gardens as they order festive hanging pots to adorn their front.

Community Club this Thursday evening with President Lola Schull presiding. Looks like another good time for our invitation says "Box Lunches" with prizes for the best wrapped boxes. Also the movement to sell the lamb Jim Sherritt donated to the club will get underway. We'd like to mention that we were at the Grand Opening of Jerry and Pat Lewis' new store at Donner Trail Lumber Co. last Sunday, tho' there isn't much point in it as we saw nearly everyone there. We would like to mention that we have never seen nuts, screws, bolts, plain old buckets, nails, plumbing fixtures, coils of insulation, faucets, wire, knobs and plugs arranged into displays that were so darned attractive. Even the paint cans and putty were arranged with an eye to color and display. Little Dorette Rose took the ladies' white enameled radio while Kurt Mann got the man's radio. Judge Little didn't look silly as he

walked out with a cookie jar, either.

Don't forget to register for the November General Election. As sat on the last election board and waited for the folks to come in to stamp their "X's", we tallied in our mind the number of folks in our area that hadn't registered and found that almost as many were not registered as the number that voted! If you have a bad taste in your mouth about one of your favorite candidates not getting under the wire, or vice versa, remember that you could have helped with your X. Your correspondent is your registrar in the Soda Springs precinct and your name, if you are not registered, is on her list so if you don't get here pretty quick to tell your age, birthplace and name to your registrar, prepare for a call from her.

Note a sign in Soda Springs Hotel window reading "Horses for Hire" etc. signed by Bernal Euer. Hear that Bernal and his wife Vida have placed some of their stock in the Rainbow Tavern area. Lonny Goss feeds his four footed friends behind the Donner Summit Lodge and already has a great many bookings for fishing and hunting parties this season. Lonny takes a reconnoiter next week with a group of mountain folk into the back country for the purpose of "showing the natives" where some of the hidden lakes and streams are. Says he, "If someone asks you about them, it ain't good to say you don't know anything about them when you live right in the area." Hear Bud Horak, Parley Merrill, Virg Misener and several others are going along. With all the horse strings ready to go to work for the season and with fishermen standing on the banks of the rivers praying for the snow waters to recede, looks like a good season.

As we travel back and forth between the Summit and Truckee we note many cars parked off the highway below the observation point on Donner Grade, their drivers and passengers taking in the beauties of the country in which we choose to live. Camera fiends and beauty lovers stand enthralled at points on the highway where, if the beauty has enthralled them to the point of stupidity, they endanger the lives of the motorists who believe the down grade of the Summit on the east side is a toboggan run and come down at full speed. We stopped and talked to one group and found they didn't know that an observation lookout was but a few yards ahead. Those going eastward come upon the observation point, one of the most beautiful sites in the world, and, due to the fact that there isn't a sign stating they must turn across the line of traffic to reach same, gasp in awe at the sight below them and swerve over the white line to park their cars in the usual lineup. To whom do we, as a community, appeal for such a sign to warn east-bound traffic that the observation point must be reached by crossing the highway and the west-bounders that there is an observation point at the top where they can take their pictures without parking on the turns? Don't think it would hurt a thing to have a couple or more, do you?
